#### **DIN 41612 EUROCARD CONNECTORS**

### **APFEL**

### Right Angle Female Extended (120 Position) Type R Connectors

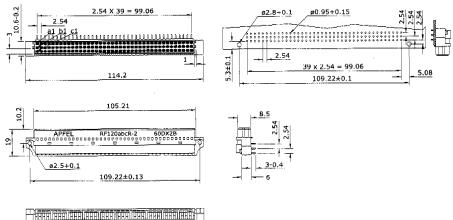

#### Option:

- Connector with pre-installed snap-in mounting clips.
- Coded connector
- Variations
- Please refer to page 33 for complete part number coding.
- Other variations, please consult factory.

#### **Dimensions**

#### Recommended P.C.B. layout

#### **Ordering Information**

Number of contacts	Rows/Positions with Contact	Class3 Angled solder	Class2 Angled solder	Pitch
80	a+c	RF80ac R	RF80ac R-2	
80	a+b	RF80ab R	RF80ab R-2	
40	a	RF40a R	RF40a R-2	
	a+b+c	RF60abc R	RF60abc R-2	.5.08mm half-loaded
60	All even no.	KFBUADE K		
40	a+c	RF40ac R	RF40ac R-2	
40	All even no.	Krauge K		

Dimensions shown are for reference purpose only. All dimensions are in millimeters unless otherwise specified.

### **APFEL**

#### FEATURES OF DIN 41612 EUROCARD

#### Two-piece printed circuit connectors

#### ■ Indirect connectors

It can eliminate the problems of board warpage, different board thickness

#### ■ High density

96 conntacts in 2.54mm grid are available in a compact body.

#### High reliability

Dual beam metal-to-metal contact polarized connectors for all series to prevent mismating. This connectors are versatilely used in telecommunications, instruments, computers, control system ect.

· General specifications

Number of contacts: 16,24,32,48,64,96

Contact spacing: 2.54mm(0.1"),5.08mm(0.2" half-loaded)

#### Material

insulator: Glass filled polyester (PBT, UL flammability 94V-0)

Contacts: Female copper alloy, male brass

Contact finish: Contact area: gold over nickel (per requirements of performance class 3, class 2)

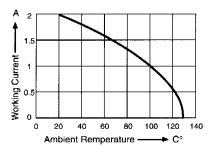

Termination area: TIN-plated or gold-plated for long wrap post

#### Mechanical

Insertion force: 96 contacts max 90N

64 contacts max 60N 48 contacts max 45N 32 contacts max 30N 16 contacts max 15N

Withdrawl force per contact: min 0.15N Temperature range:-55°C to +125°C Air and creepage distance 1.2mm min

#### **Electrical**

Current rating: 20°C 2A

70°C 1A 100°C 0.5A

Contact resistance: ≤20mΩ

(testing current 100mA) ≤40mΩ after 400 mating cycles Capacitance between adjacent contacts: Appr.2PF

insulation resistance: ≥10°Ω (between adjacent cotacts at 100VDC)

Test voltage: 1,000Vms between contacts (2.54mm spacing)

1,550Vrms between contacts (5.08mm spacing)

1,550Vrms between contacts and body

Operating voltage: 250V AC

- Specifications are subject to change without prior notice.
- · All dimensions are in mm (milli meter)

#### Agency Approval

• U/L File E149341, Electric rating: 250V, 2A

### **APFEL**

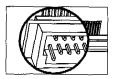

#### **DIN 41612 EUROCARD CONNECTORS**

#### **OPTIONS:**

# EXTENDED MALE CONNECTORS -EARLY MAKE/LATE BREAK

APFEL provides the early make /late break extended male contacts connectors. Before entering order, please advise the positions of extended male contacts of Row a, Row b, Row c and request for correct P/N coding for this variation. Please refer to page 33 for complete part number coding. E.G. CM96abc R-X1(contact positions, a1.b1.c1.a32.b32.c32, with extended (onger contact.)

## CONNECTORS WITH PRE-INSTALLED SNAP-IN MOUNTING CLIPS

The mounting clips are designed for use with 1.6mm (0.062")P.C.B. thickness. The material of mounting clips is copper alloy and it is Tin plated.

All solder connectors can be ordered with this feature.
Please refer to page 33 for the complete part number coding.
E.G. CM 64ac R-MC1, CF64ac T-MC2.

## WITHOUT LOSS OF CONTACTS CODING SYSTEM

APPEL provides coded connectors for type B.C.Q.R.M.

- The coded connectors are with following advantages
- -Without loss of contact
- —No need to break off the plastic housing, no tools are required.
- —Manually keying, keying can be changed and corrected easily.

E.G. CM64ac R-C

#### **KEYING COMB SET**

Each comb set includes 12keys, please order separately. Ordering part number for this plastic comb set is CS12
